with the request that the sanction of Government may be obtained to the accompanying Proposition Statement.

'C'

2. When the Executive Engineer required the services of a man not for the supervision of works but for performing the duties of a tracer and Draftsman, he should have obtained the previous sanction of competent authority for making the appointment. The irregularity will be pointed out to the Executive Engineer, who will see that it is not repeated.

Memorandum No.9544/1653 dated 24th November 1913 from S. B. Murray, Esquire, Superintending Engineer, VI Circle, Trichinopoly, to the Executive Engineer, Madura Division.

His No.1410 S. E./6. dated 6th November 1913.

Item 23. The information furnished is too indefinite to enable the undersigned to submit an application to Government It should be explained what the duties of the Maistry, consisted of, if employed on survey duties, why prior sanction was not obtained and why his appointment was not included in the Proposition statement submitted with the Executive Engineer's No.541 S. E/26th April 1913. It should also be stated who was responsible for this irregular appointment.

5/12/13

Letter No.1604 S. E./23rd December 1913, from M. O'Brien Esquire, Executive Engineer, Madura Division, to the Superintending Engineer, VI Circle, Trichinopoly.

With reference to your No.9544/1653 dated 24th November 1913, I have the honour to report as follows:--

1. The Maistry in question was transferred from the Suruliar valley in April 1911 under orders of Mr. Parker who was then Executive Engineer to work under the special Overseer who was then engaged in the preparation of ayacut maps, in the Periyar area. The Maistry was employed in colouring in the maps and transferring to them the information collected by the special Overseer such as the position of the channel and sluices and the areas irrigated by each. Previously this work had to be done by the Overseer himself and the Maistry was posted to the work because it was realised that not only was the work being delayed by the Overseer having to do such work himself, but Government money was being wasted the work being such as could be done by a far less highly paid man than an Overseer. The Maistry was employed till July 1912 and his pay in 1911 was charged to the estimate of Rs.1,500 for establishment required for taking levels of tanks to be maintained in Madura, Melur and Nilakottah Taluks Circle Register No.188 of 1911-12. His pay in 1912 was charged to the estimate of Rs.500 for establishment required for taking levels to tanks to be maintained in Madura, Melur and Nilakotta Taluks during 1912-13 sanctioned in Circle Register No.134 of 1912-13. Both estimates have since been closed. No objection has been taken to the employment of the Maistry in 1911 and it is only his employment from April 1912 to July 1912 that seems to be objected to.

⊗ Presumably these estimates were sanctioned by the S.E.

2. The reason for not including this appointment in the proposition statement sent with this office No.541 S. E. dated 26th April 1913 seems to be that it was first considered that the objection raised was not a valid one as will be seen from the reply to para 23 of the Inspection Report sent with this office No.196 S. E. dated 13th February 1913 and

Note. The entertainment of the clerk has been

afterwards

Sanctioned in G.O.R.No.1036 W of 8.11.13 & R.No.5 W of 2.1.14.

R. Y.

afterwards the question of the Maistry on Rs.25 and the clerk on Rs.15 were mixed up and confused and as a result sanction was applied for for only one of them.

3. The cooly was employed in taking messages to village karnams, carrying maps and surveying instruments and it was impossible to carry on the work properly without employing a cooly. The same cooly was not employed all the time and a cooly was employed only from time to time as he was required.

Note: The proposition statt shows that the cooly was employed all the time from 1-4-11 to 31-7-12 all the time the maistry was engaged.

4. It does not seem to have been realised at any time that Government sanction was required to the employment of this Maistry and cooly and this is what has caused all the trouble. If it had been realised, sanction would, I presume, have been applied for as the services of both were absolutely necessary and by their employment Government has actually gained, as, if they were not employed, the work would have taken much longer to complete and would have cost considerably more. The proper course would have been to have sanctioned a special establishment for the ayacut map work, but none was sanctioned and shift had to be made to get the work done by a special Overseer and sub-overseer who happened to be available.

6 MAR 1914
No. 1355/14

The general question as to the debit of the cost of special establishments of the kind was discussed in the notes to G.O. No. 250 I dy 4.7.12 re. the establishment for the preparation of ayacut maps of the Cauvery Delta. The conclusions come to were that the supervising staff should be charged to "45" while the cost of survey and other subordinate staff should be debited to "42". According to this ruling the charges in the present case on account of the maistry and the cooly should be debited to 42 - Major Works (Working Expenses). Maintenance + Repairs. Periyar System.
